- ***2008 Wrap-Up: We're ready for 2009***
- ***Upcoming Shows: WOC & IRE***
- ***Congratulations: ALL Weather Products Inc.***
- ***Product Spotlight: 2009 ChemCurb™ Promotion***

2008 WRAP UP:

What a year 2008 turned out to be, financial turmoil, credit crisis, housing melt down, sky rocketing fuel costs, fears of inflation then deflation. Through it all Chem Link kept looking ahead and relying on all of the great distributors and contractors that we have the honor of working with. In the end we are happy to say that the year was successful for Chem Link and we owe all of you a very big thank you! 2009 brings more uncertainty and unknowns for all us of in the building construction industry. We can anticipate a new administration, new rules and certainly a new look on how each of goes about our everyday business.

This past year we focused on developing new tools and products for you to make your projects faster, easier and more economical. Chem Link plans to expand their offerings to the contractor by introducing several additional products that will complement our existing Chem Curbs and roof repair systems. We will also be furthering our testing and development work with FM, SWRI, AMMA and other code bodies allowing you more access to specifications. Keep an eye out for news releases, product updates and training opportunities throughout the year by visiting our website www.chemlinkinc.com. As always if there are any questions or if you run into a jobsite issue we are available to provide our expertise through our contractor hotline at 1-800-826-1681 from 8 am to 8PM EST. We are excited for the upcoming year and look forward to helping each and everyone you have a successful 2009.

Dennis Kelley & Paul Graham

UPCOMING SHOWS:

World of Concrete (WOC) Feb 3-6, 2009 Las Vegas Convention Center. Visit our booth in the South Hall - Level 2 #S222. We will be showing some of the industry's newest products to repair and renovate existing building, schools and commercial structures.

International Roofing Show (IRE) Feb 3-5, 2009 Mandalay Bay Convention Center. Visit our booth #2477 to see some great new additions to our product line up for 2009. Our focus this year will be Roof Repair and Maintenance.

CONGRATULATIONS:

ALL Weather Products Inc. wins Supplier of the Year Award - Congratulations to our Chicago land representative for winning the CRCA Supplier of the Year Award. Fred and his group have been a long time supporter of the CRCA and we are proud to have him as part of our Chem Link Team!
